MASSAGES

OUR RANGE OF MASSAGES FOR YOU

Classic massage

Whether it's just your back or legs, or maybe a whole body massage, indulge yourself and unwind completely. The muscles are loosened and tension released.

Sports massage

Depending on whether intended for preparation, regeneration or following sporting activity, classic massage techniques and other supplementary motions are used.

Lymph drainage

This gentle form of massage stimulates the lymphatic system. It helps with dehydration and purification and has a harmonising effect on the autonomic nervous system. It's also used as an oedema and decongestive therapy after trauma or surgery.

Foot reflex zone massage

Stimulation of the foot reflex zones can have a positive effect on the entire body and all its organs.

Medical or healing massage

Here the focus is specifically on treating medical problems. The treatment uses classic massage motions and soothing massage techniques.
